The map illustrates the rail network across the Benelux region (Netherlands, Belgium, and France) for 2018, focusing on weekends and public holidays. It shows major high-speed rail corridors and domestic InterCity services. Key features include:

- Geographical Coverage:** The map spans the Netherlands (Nederlân), Belgium (België/Belgique), France, and parts of Germany (Deutschland) and Switzerland (Schweiz).
- Major Hubs:** Amsterdam, Brussels, Paris, and Cologne are central nodes in the network.
- Service Types:** High-speed rail services (Eurostar, Thalys, TGV, ICE) are shown in grey, while domestic InterCity services are color-coded by operator (Nederlandse Spoorwegen, NMBS/SNCB).
- Frequency and Connections:** The map uses line thickness and symbols to indicate service frequency (e.g., 2 trains per hour) and connections to local transport (metro, tram, etc.).
- Notes and Exceptions:** Specific notes are provided for routes like Amsterdam-Berlin, Amsterdam-Brussels, and Brussels-Luxembourg, detailing service changes and operator responsibilities.
- Legend:** A comprehensive legend explains the symbols for station types, service frequencies, and transfer points.
