RE (Rodange) – Luxembourg – Gouvy
RB (Rodange – Viroin)

'P' trains are the numerous commuter-oriented train services that run in addition to the regular InterCity and local train services (S and L trains) in Belgium. Their routing and stopping pattern are often different from the normal train services, and they run primarily during peak hours. P trains that run before the afternoon peak have train numbers 7xxx, and P trains that run during/after the afternoon peak have 8xxx. Also included in this map are S trains that have 7xxx or 8xxx train numbers.

International trains that run between Belgium and Luxembourg have the same train numbers in both countries. Amongst these international trains, trains that are classified as P in Belgium are classified in Luxembourg as:

- IC (InterCity) for line **B15**
- RE (RegionExpress) for lines **LX1c**, **LX3a**, and **LX3b**
- RB (RegionalBunn / RegionalBahn) for lines **LX2b** and **LX1d**

Line names like **B11b** and **LV2** used this map are not nomenclature used by NMBS/SNCB or CFL.

➔ Airport / North Sea ferry port with regular passenger services
Only selected land-connections run by regular public transport operators are shown
When more than one option is shown, the better option(s) is/are underlined
See port and flight / ferry operator websites for more access options
