The map illustrates the rail network in Benelux, highlighting InterCity and high-speed services. Key features include:

- Geographical Coverage:** The map spans the Netherlands (Nederlân/Nederland), Belgium (België/Belgique), and Luxembourg (LU), with extensions into Germany (Deutschland), France (France), and Switzerland (Schweiz).
- Service Types:** High-speed rail services (Eurostar, Thalys, TGV, ICE) are shown in grey, while domestic InterCity services are color-coded by operator: Nederlandse Spoorwegen (orange), NMBS/SNCB (green), and CFL (red).
- Stations:** Major stations are marked with circles, and smaller stations with squares. Some stations are also served by local trains, indicated by a small 'L' icon.
- Routes and Frequencies:** Lines connect major hubs like Amsterdam, Brussels, and Luxembourg. Frequencies are indicated by line thickness and text labels (e.g., '2 train services per hour per direction').
- Transfers:** Coordinated cross-platform transfers are shown with double-headed arrows between lines.
- International Connections:** Routes to London (UK), Paris (France), and Frankfurt (Germany) are highlighted.
- Legend:** A comprehensive legend on the left explains the symbols for stations, service types, and transfer points.
