The map illustrates the rail network connecting major cities in the Benelux region. Key features include:

- Geographical Scope:** The map covers the Netherlands (Nederlân/Nederland), Belgium (België/Belgique), France, and parts of Germany (Deutschland) and Switzerland (Schweiz).
- Major Hubs:** Amsterdam, Brussels, Paris, and Luxembourg are central nodes with numerous connecting lines.
- Service Details:** Specific routes are color-coded and labeled with service names (e.g., IC Amsterdam - Brussels, Thalys Paris - Brussels) and frequencies (e.g., 12 per day, 1 per hour).
- Legend:** A comprehensive legend on the left explains the symbols for high-speed services, domestic and international InterCity services, station types, and service frequencies.
- Connections:** The map shows how services connect to other modes of transport, such as airports (Schiphol, Brussels, Luxembourg) and ferry ports.
