
P-train (piekuurtrein) / Train P (train d'heure de pointe) / P-Zug (Zug des Spitzenverkehrs):

P trains in Belgium are irregular passenger train services which supplement the regular (usually hourly) EC, IC, S, and L train services.

Listed here are the individual P train services. P services often have different routing and/or stopping patterns than the regular services.

P services that start before 15:00 have the train number 7xxx, and those after 15:00 have the train number 8xxx. Also included in this map are S trains that have 7xxx or 8xxx numbers.

Belgian P trains that cross into Luxembourg have the same number in both countries. Belgian P trains are classed as IC in Luxembourg.

Line names like **B7b** and LV1 are classifications used only in this map; these are not nomenclature used by Belgian or Luxembourgish train operators.

There is a slight decrease in the number of P services over the years. Many have been regularised, e.g. upgraded to run hourly the whole day, became peak extensions of other regular services.

In a list of P-train services:

*(€) Brussels Airport Supplement: €6,70 surcharge for passing through the passenger gates at Brussels Airport-Zaventem station. Check whether the supplement needs to be purchased if it is not already included in a ticket.

Belgium: EC, IC, S, L, P, and T services within Belgium have the same distance-based ticketing. Luxembourg: Domestic public transport in Luxembourg is fare-free, except 1st class train travel: IC, RE, RB, and TER services have the same time-based ticketing. (Belgian buses in Luxembourg do not take domestic passengers.)

Check carefully in a journey planner for the latest info. Usually Sunday schedule applies on holidays (in which case **the P-train services shown here do not run**). Check at, e.g., belgiantrain.be, cfl.lu
